Professional Summary

Enthusiastic **Java Backend Developer** with hands-on experience in Spring Boot, API development, and database integration. Adept at using advanced **AI tools** like **Claude AI** and **Cursor AI** for code generation, debugging, and improving development efficiency. Quick learner with a strong problem-solving mindset, eager to contribute to innovative backend solutions in a dynamic tech environment.

Education

R.B.N.B. College, Shirampur. Ahilyanagar (Master's of computer science) - Pursuing	2025-2027
R.B.N.B. College, Shirampur. Ahilyanagar (Bachelor's of computer science) - CGPA : 8.71	2022-2025
R.B.N.B. College, Shirampur. Ahilyanagar (H.S.C) - 50%	2021-2022

Technical Skills

- **Programming Languages** : Java ,Python ,SQL
- **Backend Technologies** :Spring Boot ,REST APIs ,Hibernate ,JDBC ,Microservices .
- **Frontend**:HTML ,CSS
- **Database** :MySQL
- **Tools & Platforms**: GitHub ,Postman ,Maven ,VS Code ,IntelliJ IDEA.
- **AI Development Tools** :GitHub Copilot ,Cursor AI ,ChatGPT ,Claude AI

Experience

Trainee Associate — Flatworld Solutions Pune, Maharashtra | Jan 2026 – Mar 2026

- Worked on real-world software development tasks and backend support activities in a professional environment.
- Assisted in developing and testing backend functionalities using Java and modern development tools.
- Collaborated with team members to improve application performance, debugging, and problem-solving processes.
- Utilized AI-powered tools such as GitHub Copilot, Cursor AI, and ChatGPT to enhance development productivity and code quality.

Java Full Stack Developer Intern — The Kiran Academy Pune, Maharashtra | April 2025 – Nov 2025

- Developed backend modules and REST APIs using Java and Spring Boot.
- Integrated MySQL database for efficient data storage and retrieval operations.
- Worked on frontend development using HTML, CSS, and JavaScript.
- Implemented CRUD operations and participated in debugging and application testing.

Projects

Doctor-Patient Record Management System

Technologies: Java, Spring Boot, Hibernate, MySQL, REST APIs

- Developed a backend healthcare management system to manage doctor and patient records efficiently.
- Designed RESTful APIs for patient registration, appointment booking, medical history tracking, and doctor management.
- Implemented CRUD operations with Spring Boot and Hibernate for seamless database interaction.
- Integrated MySQL database for secure storage and retrieval of healthcare records.
- Applied layered architecture and exception handling for maintainable and scalable backend development.
- Tested APIs using Postman to ensure reliable communication between frontend and backend systems.

Online Examination Portal

Technologies: Java, Spring Boot, MySQL, REST APIs

- Developed an Online Examination Portal for managing exams, students, and results.
- Implemented REST APIs for student registration, login, exam management, and result generation.
- Integrated MySQL database using Hibernate/JPA for efficient data management.
- Built secure authentication and CRUD operations for exams and student records.
- Used layered architecture to create a scalable and maintainable backend system.

Certificate

- Artificial intelligence guid - simpliLearn
- Java Full Stack -Kiran Academy Pune
- Data Analytics and visualization - Accenture
